💼 PROFESSIONAL EXPERIENCE

10/2022 – present

Myra Security (via TechPods) ⬀
Full Stack Engineer

- Led the development of their new marketing website, built upon Gatsby
- Laid out groundwork for an internal React component library
- Co-created a GraphQL reverse proxy, built with NestJS, allowing for a transition to a microservice architecture
- Actively contributed to different codebases, in a range of technologies:
  - a server built with Symfony
  - a webapp built with NextJS
  - a BFF built with NestJS
  - an SDK and Terraform provider built with Go

11/2021 – 10/2022

AbleTo (via MentorMate) ⬀
Front End Engineer

- Assumed responsibility for a mostly-abandoned Native Android application, updating it with Android Architecture Components and Compose
- Created a PoC React Native application, that became the basis for a complete rewrite of their existing Android app
- Led and mentored a team of Junior Developers, overseeing task assignment, code reviews
- Handled communication with Product teams, provided estimations, roadmaps and guidance in overall product strategy

08/2020 – 11/2021

Sanvello (via MentorMate)
Front End Developer

- Took part in the development and production launch of a fully featured React web application, incorporating WebRTC, video/audio streaming and complex assessment flows
- Spearheaded the creation of a React Native application, finding ways to share business logic over a similar feature set
- Integrated developer tooling (linting, typechecking, formatting) into dev workflows
- Set up CI/CD pipelines with GitHub actions and Jenkins
- Led the architecture and development of a feature rich headless CMS system

🎓 EDUCATION

Bachelors of Psychology

Plovdiv University 'Paisii Hilendarski'

10/2017 – 06/2021

While not directly related to the field of Software Development, the knowledge I accumulated during my time studying Psychology has been instrumental in developing a solid set of soft skills

🧠 SKILLS

React   React Native   NodeJS

TypeScript   NextJS   NestJS

PHP
